

Mainers have the power to improve their internet service!

The federal government is trying to understand if people in Maine have reliable internet service. **What do you think?**

MCA needs your help to *correct the dots* and make sure that the Federal Communications Commission has accurate information about broadband accessibility and quality across our state.

Your input will improve the accuracy of the map and result in federal funding for broadband being targeted to the areas of Maine that need it most.

correct
the dots

connect our communities

Please help us Correct the Dots (and connect our communities) before January 13, 2023!

- 1.** Use the map at maineconnectivity.org/challenge and type in your address.
- 2.** If the information about the broadband service offerings available at your home, camp, or business needs to be corrected, click Availability Challenge, fill out the form, and click submit.
- 3.** If there is not a point on your home, camp, or business, drop a pin on the map, click Location Challenge, fill out the form with the correct information, and click submit.
- 4.** Encourage your neighbors, friends, and family to follow steps 1 through 3 and Correct the Dots!
